

Driving Under the Influence of Alcohol and Drugs

When operating a motor vehicle, boat or water craft in Virginia, you are legally considered driving or operating under the influence (DUI) if your blood alcohol content (BAC) is 0.08 percent or higher. You may be considered under the influence with a lower BAC if your ability to operate a motor vehicle, boat or water craft is impaired. If your driving is affected because you are under the influence of any drug, you may face the same penalties as driving under the influence of alcohol.

If you are involved in a motor vehicle crash and a law enforcement officer has probable cause, you can be arrested for DUI within three hours of the crash without a warrant and at any location.

If you are arrested for DUI a third or subsequent time within a five-year period, you will not be granted bail while you wait to go to trial.

All DUI laws apply to mopeds operated on public highways.

Open Container

You may be charged with drinking while operating a motor vehicle if you are stopped by law enforcement and you have an open container of alcohol in the passenger area, the contents of which have been partially removed, and you exhibit signs that you have been drinking. The passenger area refers to the area designed to seat the driver and passengers and any area within the driver's reach, including an unlocked glove compartment.

Administrative License Suspension (ALS)

For a first DUI offense and/or breath test refusal, your driver's license will be automatically suspended for seven days if your BAC is 0.08 percent or higher. For a second DUI offense and/or breath test refusal, your license will be automatically suspended for 60 days or until you go to trial, whichever ever comes first. For a third DUI offense and/or breath test refusal, your license will be automatically suspended until you go to trial. Conviction of a DUI offense will result in suspension of your driver's license and other penalties in addition to the administrative suspension.

Breath Test Refusal

You do not have the option of requesting a blood test instead of a breath test for an alcohol-related offense. If you have had a prior DUI conviction or conviction of breath test refusal, you will be charged with a Class 2 misdemeanor for refusing to take a blood alcohol test. If you have had two DUI convictions or conviction of breath test refusal within a ten-year period, you will be charged with a Class 1 misdemeanor. Both offenses carry a three-year license suspension.
